

## **CV of David L. Stymiest, PE, FASHE, CHFM, CEM, GBE**

David Stymiest P.E., CHFM, FASHE, CEM, GBE is a nationally recognized speaker, trainer and author. He is presently a Senior Consultant at Smith Seckman Reid, Inc. (SSR) responsible for Day Two Compliance, TJC Sentinel Event Alert 37 Compliance, Emergency Management Compliance, Continuous Compliance Cycle consulting, electrical power systems consulting, facilities engineering and management consulting for SSR's healthcare clients. Before joining SSR in June 2000, he was Senior Electrical Engineer for more than 10 years for Massachusetts General Hospital and the other hospitals of Boston-based Partners HealthCare System.

David has 36 years intensive professional experience in facilities and electrical engineering for health care, institutional, industrial, commercial, civil works, transportation, and electrical utility projects. He has spent almost half of his career as an Owner and hospital engineer, and half his career as a consulting engineer. He is acknowledged as a forward-thinking leading industry expert in the management, operation, testing, and application of emergency power systems in health care facilities.

He is an AHA Certified Healthcare Facility Manager (CHFM), a Fellow of ASHE (FASHE), an AEE Certified Energy Manager (CEM) and Green Building Engineer (GBE), and a Registered Professional Engineer in three states.

David is presently the Chairman of the NFPA Technical Committee on Emergency Power Supplies, which has responsibility for NFPA 110 and NFPA 111.

David is a member of the ASHE Education Committee. He was also an active member of the Power Distribution Workgroup of ASHE's NFPA 99 Revision Committee, charged by ASHE with recommending changes to NFPA 99. David was also the Chapter Chairman for Chapter 4 – *Electrical Power Systems for Delivering Patient Care* for the IEEE White Book, IEEE 602-2007.

He has a BS degree (1972) and a Master of Engineering degree (1973) in Electric Power Engineering from Rensselaer Polytechnic Institute, and a Certificate of Special Studies in Administration and Management (1984) from Harvard University Extension.

David has spoken at 14 national ASHE conferences, dozens of state conferences, 2 NFPA conferences, several national audio conferences, and the EC Summit, written and updated 2 ASHE Technical Documents / Management Monographs, and written 13 Health Facilities Management Magazine articles. He also co-edited the 1200-page McGraw-Hill Facilities Engineering and Management Handbook for Commercial, Industrial, and Institutional Buildings, which was published in 2001. David has also written two articles for publication in London, UK for the International Federation of Hospital Engineering (IFHE). He has also written articles for Maintenance Solutions Magazine, Healthcare Circuit News and Consulting-Specifying Engineer.
